Included in the list of those whose active careers were ended yesterday by the recommenda-tion of the board, were several captains with 'distinguished records. While the health of some of the officers "plucked" had been regarded as

somewhat unsatisfactory, the records of all of them disclosed, according to Secretary Daniels, that they were not unfitted for any naval service from the standpoint of habit, temperament and professional ability.

Secretary Daniels hopes to have congress pass legislation to readjust the navy's personnel so as to eliminate certain features of the present law which he considers objectionable. With all the "palpably disqualified" officers already eliminated the secretary hopes to so arrange the personnel that it will not be necessary to retire any of the thoroughly competent officers now in the service.

The meetings of the "plucking board," which are annual affairs, are looked forward to with considerable apprehension by naval officers.

He missed death himself when the westerners' inevitable pocket comb in the upper lefthand vest pocket slowed down a bullet aimed at his heart.

The dead man was identified as Hugh Whitney, a desperado, known for depredations in Montana, Idaho and Wyoming. His wounded companion and a third robber were trailed by posses. They got about \$200 from the express car of the train, one diamond ring valued at \$700 and a few dollars. The robbers boarded the train when it slowed down to drop a helper engine. A request that women be left undisturbed was agreed to and one robber remained to guard the crew. The others encountered MacDuffey.

After the shooting the wounded bandit dragged himself back to the express car, summoned his companion and excaned.
